## HEALTH CHECKS AND TUNE-UPS

History proves, as time passes, and staff members rotate in your IT department, configurations can grow stale and ineffective. Future Com's vast experience with our vendors enables us to provide a periodic health check or tune-up for our clients.

FUTURE COM'S EXPERT CONSULTANTS WILL REVIEW THE HEALTH OF YOUR APPLIANCES AND MAKE RECOMMENDATIONS BASED ON THEIR FINDINGS.

### The health check includes:

- Software Versions
- Upgrade Readiness
- Operating System Vulnerabilities
- Hardware Utilization & Compatibility
- Configuration Review
- Feature Utilization Review
- Design Review

### The tune-up includes:

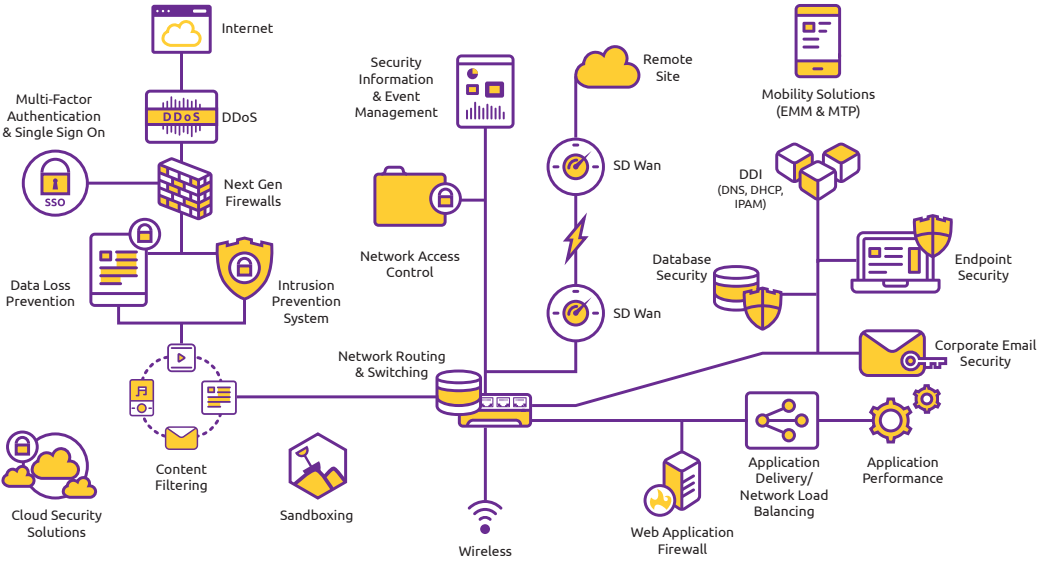

- Software Upgrades
- Configuration Optimization
- New Feature Implementation

**Products include F5, Infoblox, Check Point, Palo Alto, Fortinet, McAfee, Cisco, SecureAuth, ForeScout, HP Aruba, Symantec, and MobileIron.**

# ABOUT FUTURE COM

Future Com is redefining cybersecurity, consulting and cloud security. A privately held company for over 25 years, Future Com is an integrator of leading industry brands, delivering customized solutions to secure our customers' networks wherever they are.

Future Com provides consulting services and products with a focus on cloud and cybersecurity solutions. We partner with our customers, working with them on everything from preventing the loss of electronic data to ground-up network design and implementation.
