## CLOUD SERVICE RISK ASSESSMENT

There is a huge gap between perception and reality when it comes to how many cloud apps are being used in today's corporate networks. Even when companies allow SaaS applications, the data being stored is typically still unknown.

Future Com's Cloud Service Risk Assessment can identify and score thousands of cloud applications being utilized in your environment.

FUTURE COM HELPS ORGANIZATIONS UNDERSTAND INTERNAL DANGERS YOU MAY BE FACING WHEN CONTRACTING WITH A CLOUD SERVICE PROVIDER.

**You will receive a Cloud Service Risk Assessment Report containing the following:**

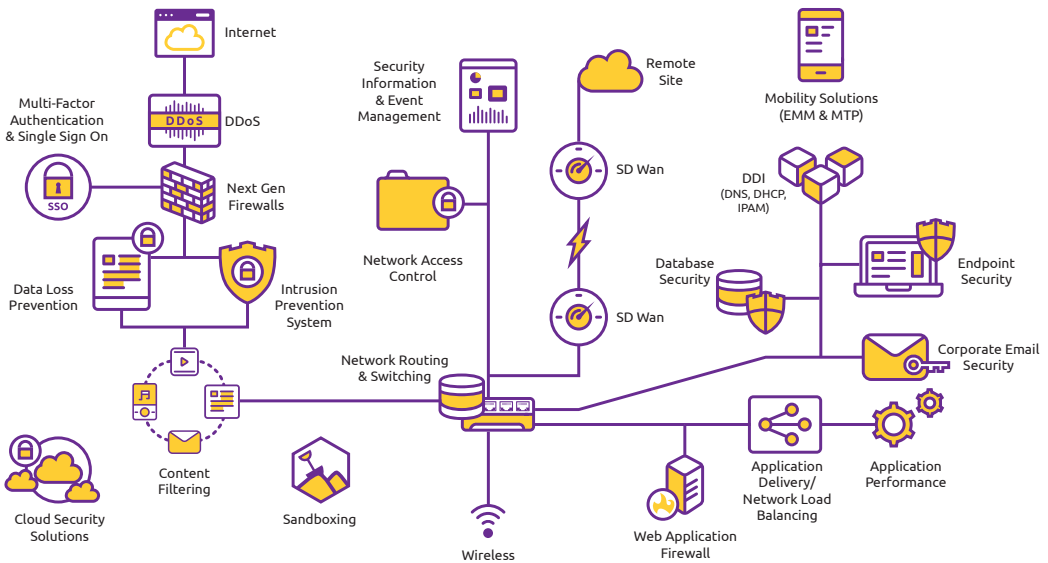

- All SaaS Apps used by desktops, laptops, and mobile devices
- Externally and Publicly exposed data in your cloud apps
- Compliance Violations including documents containing PII, PHI, & PCI
- Risky Users and Behavior information
- Risk Scores of apps and users

**The assessment also includes a consultation with a Cloud Service expert to explain the report and discuss potential solutions available to take control of your exposure.**

# ABOUT FUTURE COM

Future Com is redefining cybersecurity, consulting and cloud security. A privately held company for over 25 years, Future Com is an integrator of leading industry brands, delivering customized solutions to secure our customers' networks wherever they are.

Future Com provides consulting services and products with a focus on cloud and cybersecurity solutions. We partner with our customers, working with them on everything from preventing the loss of electronic data to ground-up network design and implementation.
