# HUMAN SECURITY ANALYSIS

## THE QUESTION

Have my viruses  
and security incidents  
decreased?

Do I trust my end-users  
to protect my  
company's assets?

Is my Security  
Awareness Training  
actually working?

FUTURE COM UTILIZES A LIFE-CYCLE METHODOLOGY DESIGNED TO CHANGE THE BEHAVIOR OF YOUR EMPLOYEES.

## THE ANSWER

Human Security secures the human, which in turn secures the company. We help your employees understand the "why" behind security through testing, training, and teaching.

## THE VALUE

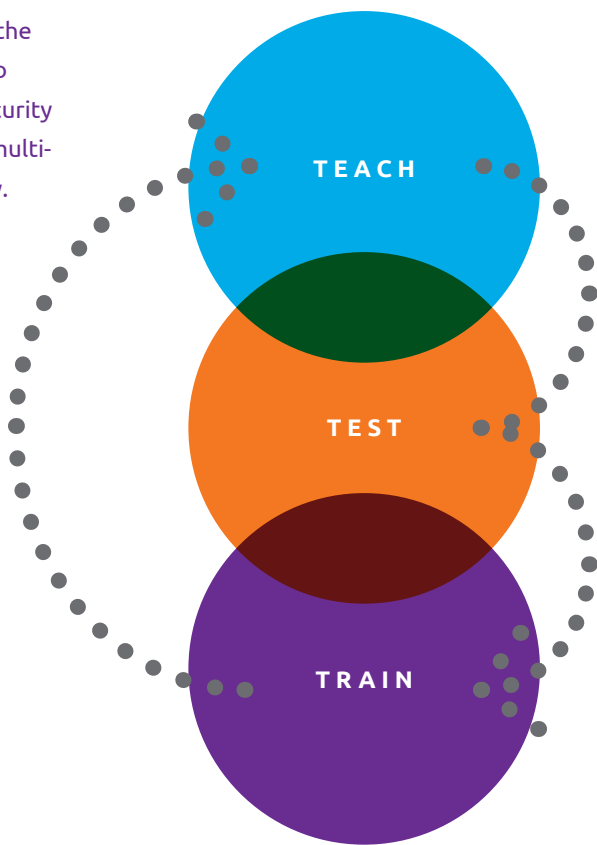

Future Com's Human Security service addresses the top human security risks discovered in every organization. We focus on behavior change and provide monthly reports. You don't have to do anything except see results.

# HUMAN SECURITY ANALYSIS

Future Com utilizes a Life-Cycle Methodology designed to change the behavior of your employees. We go beyond the traditional "Annual Security Awareness Training" to provide a multi-phase approach to Human Security.

**Our human security service includes:**

- Executive briefing
- Baseline phish testing
- Townhall employee meetings
- Security awareness training
- Testing with teachable moments
- Metrics to track improvement
